

1, Put VCM CD for Ford into PC, and open V59 as follows.

2, Firstly install IDS.

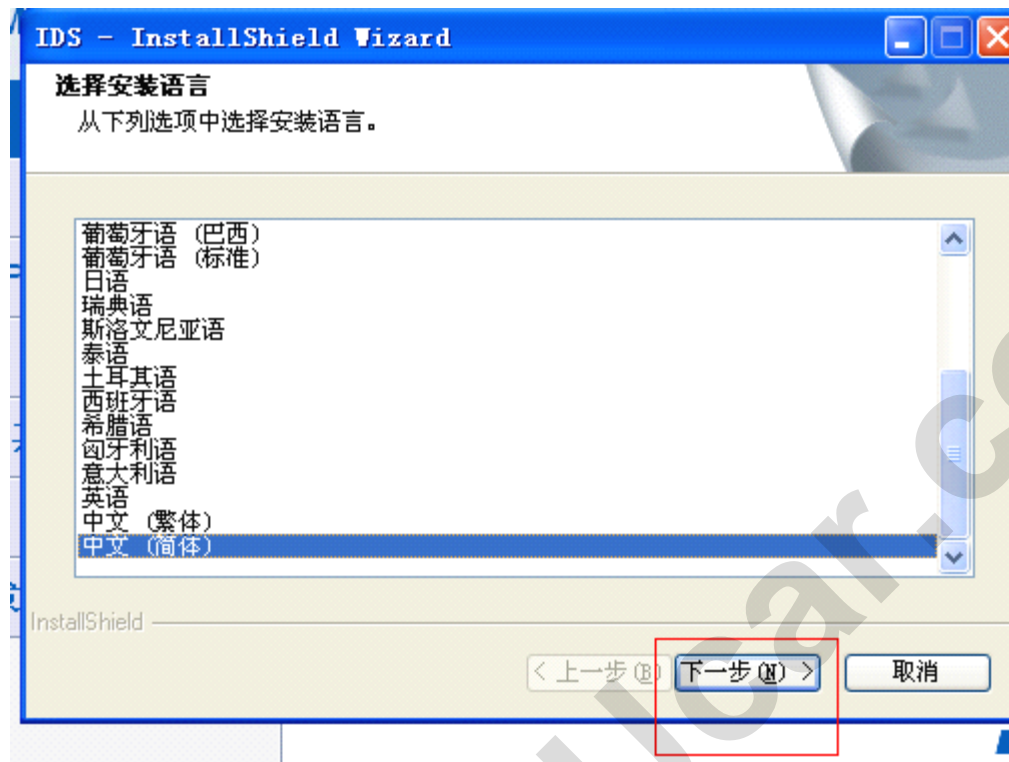

3.Next

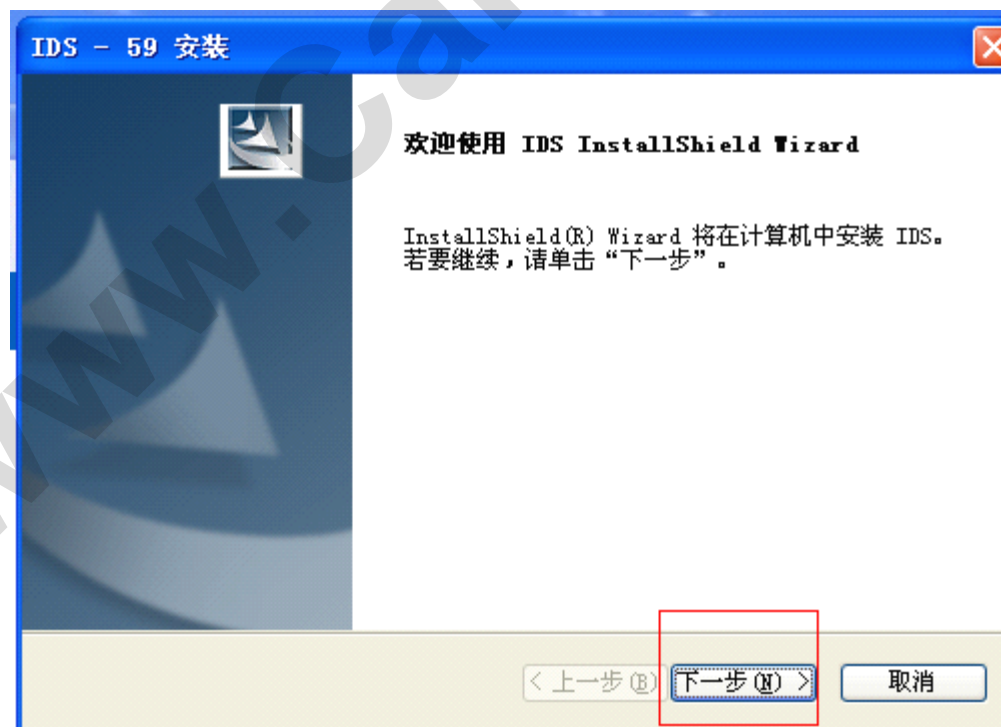

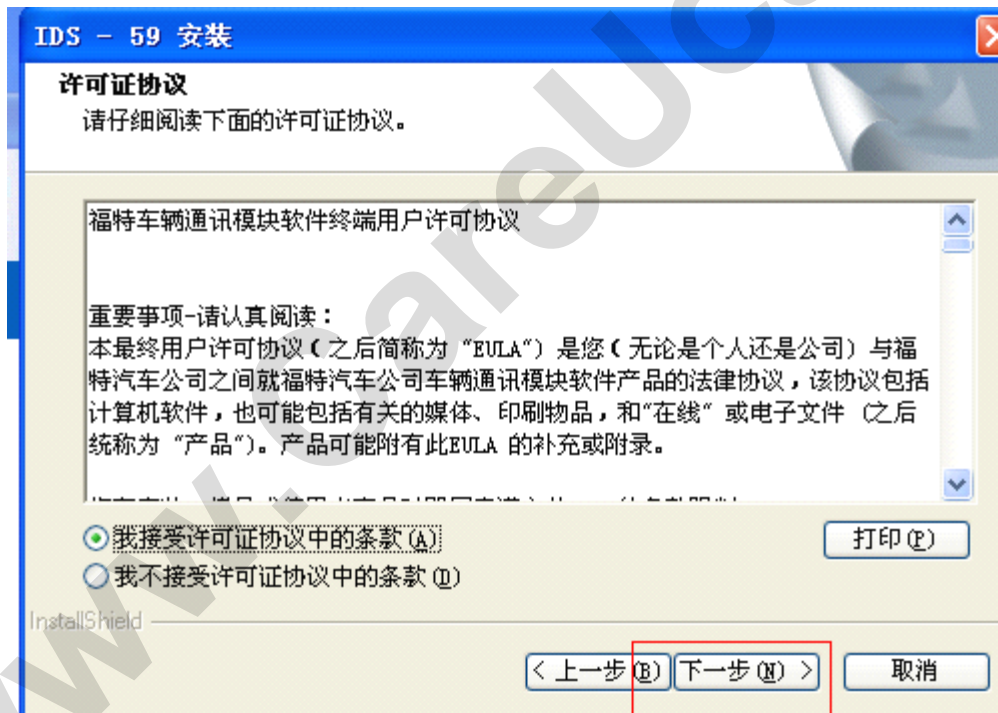

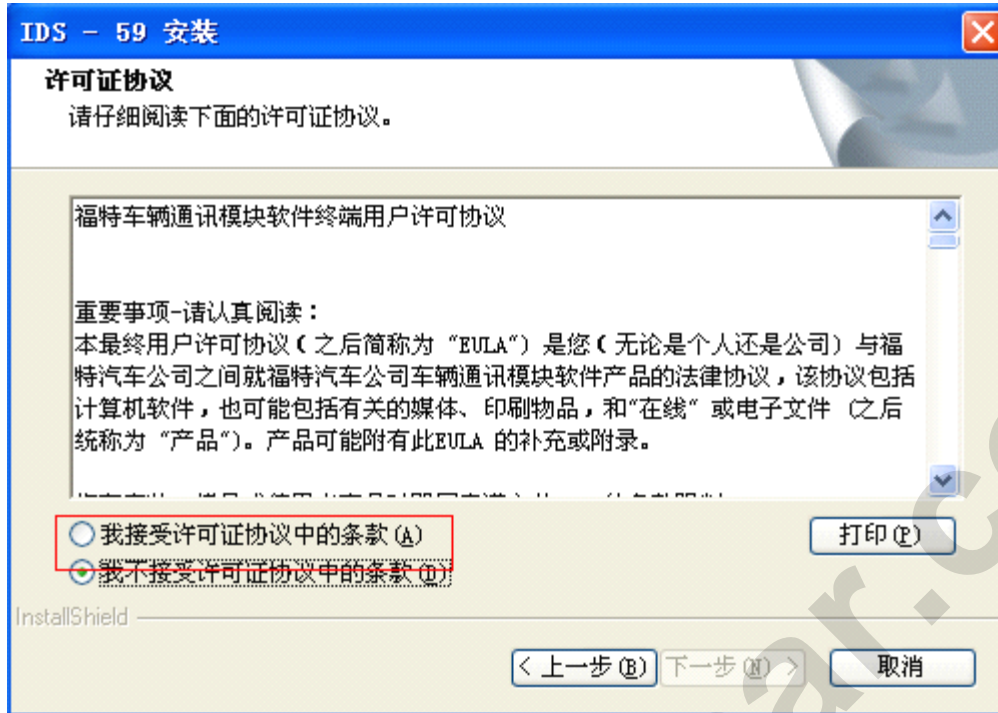

Email: sales02@careucar.com MSN: careucar@hotmail.com  
Skype: careucar Yahoo: careucar@ymail.com

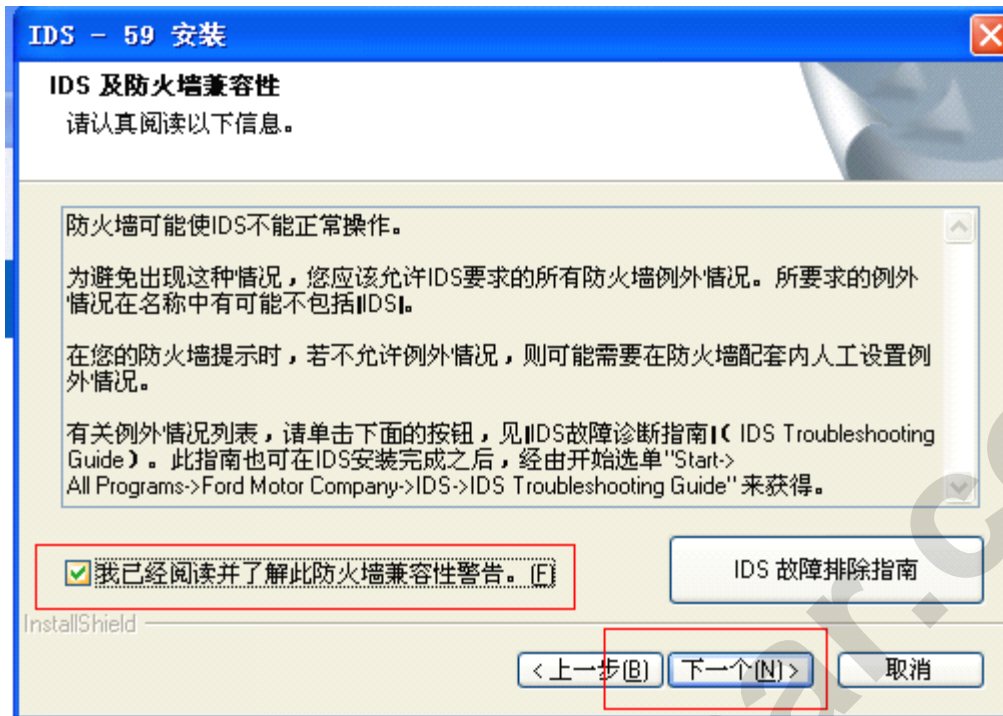

Select language, and click “Next”.

Next

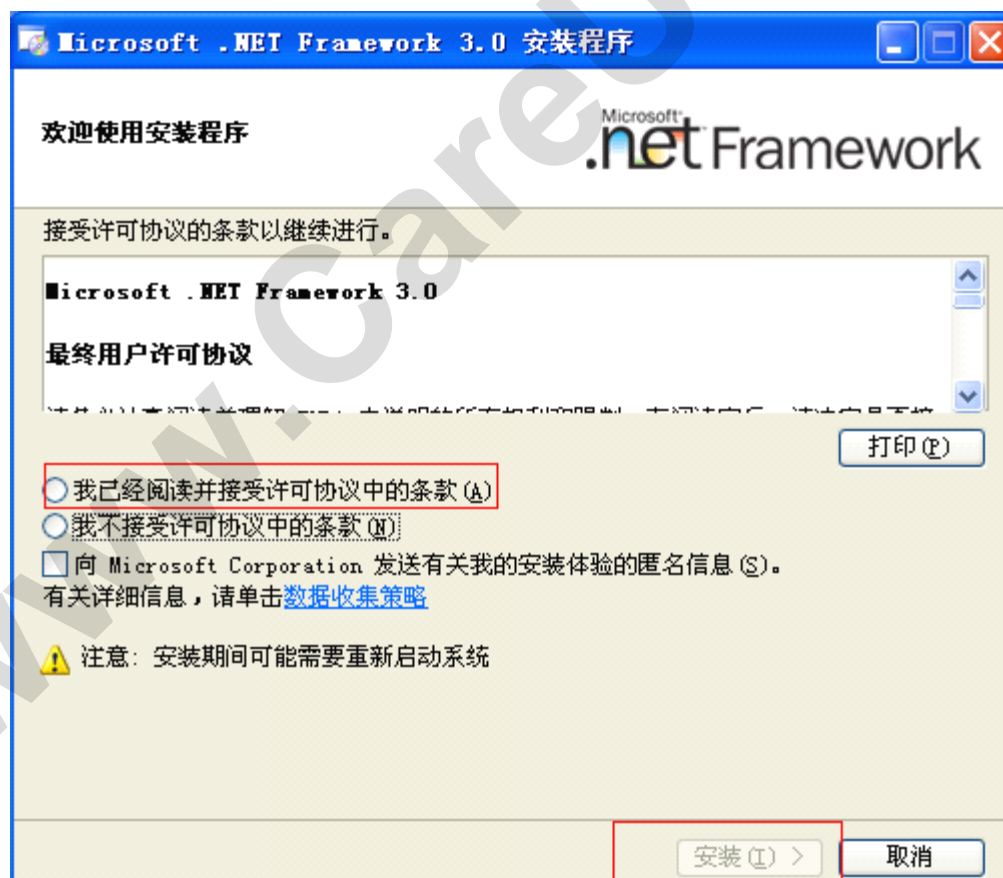

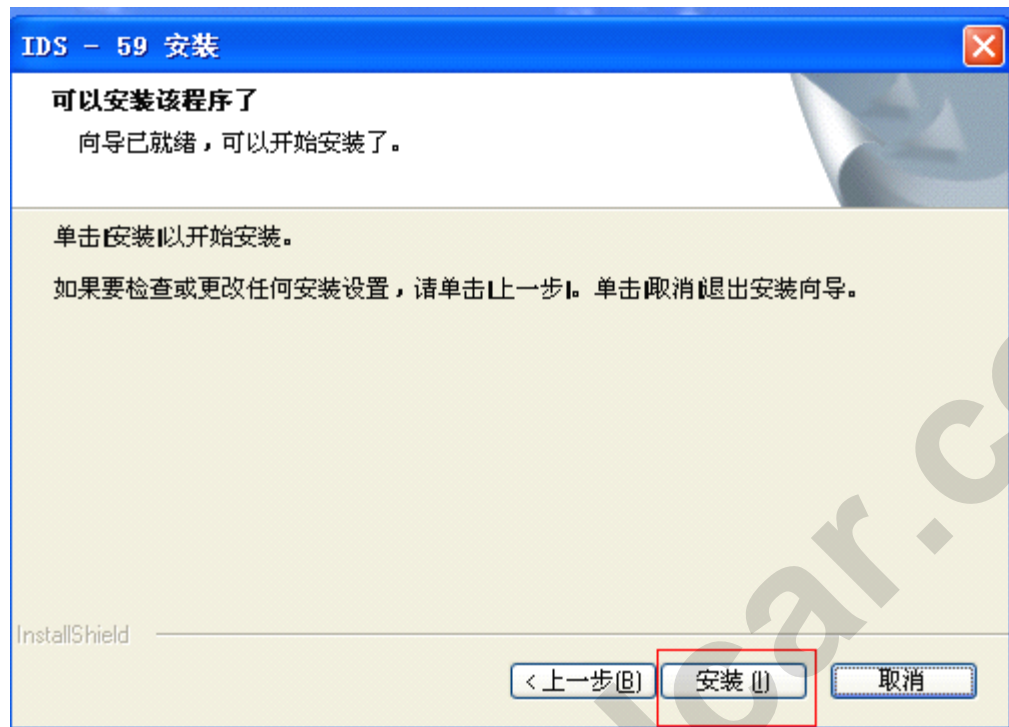

Select "C disk" to store, and click "next" .

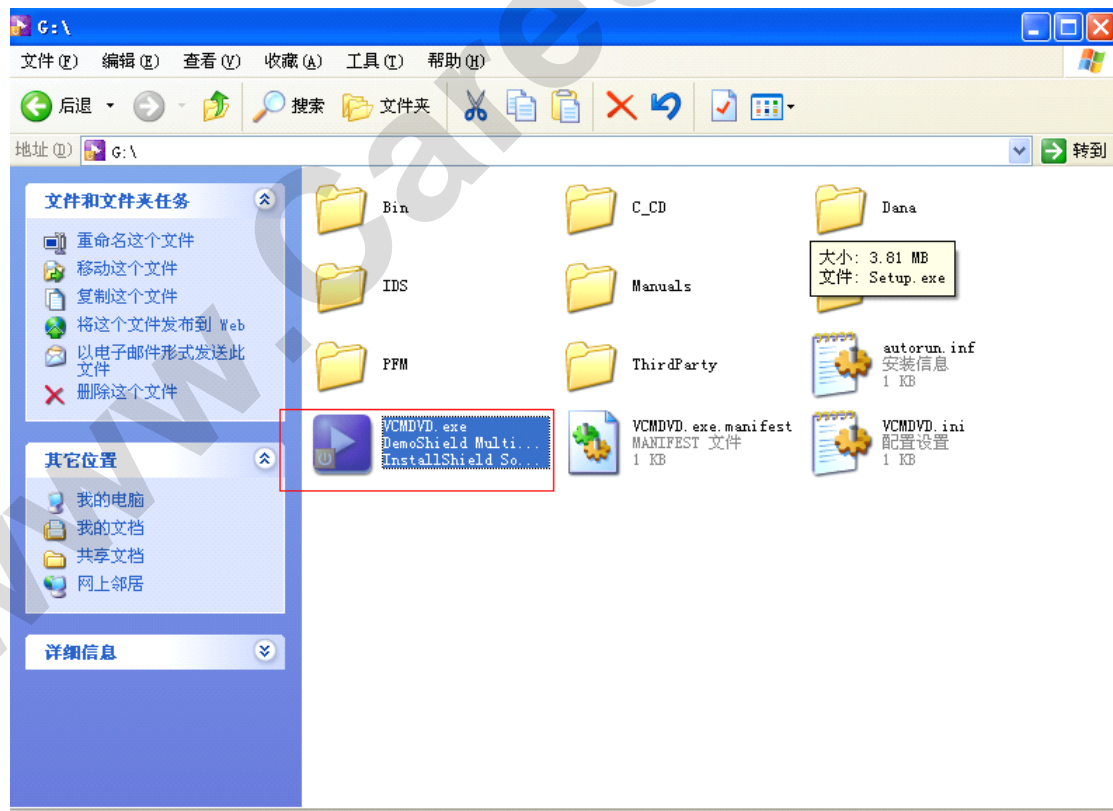

Email: sales02@careucar.com MSN: careucar@hotmail.com  
Skype: careucar                      Yahoo: careucar@ymail.com

Select "Install"

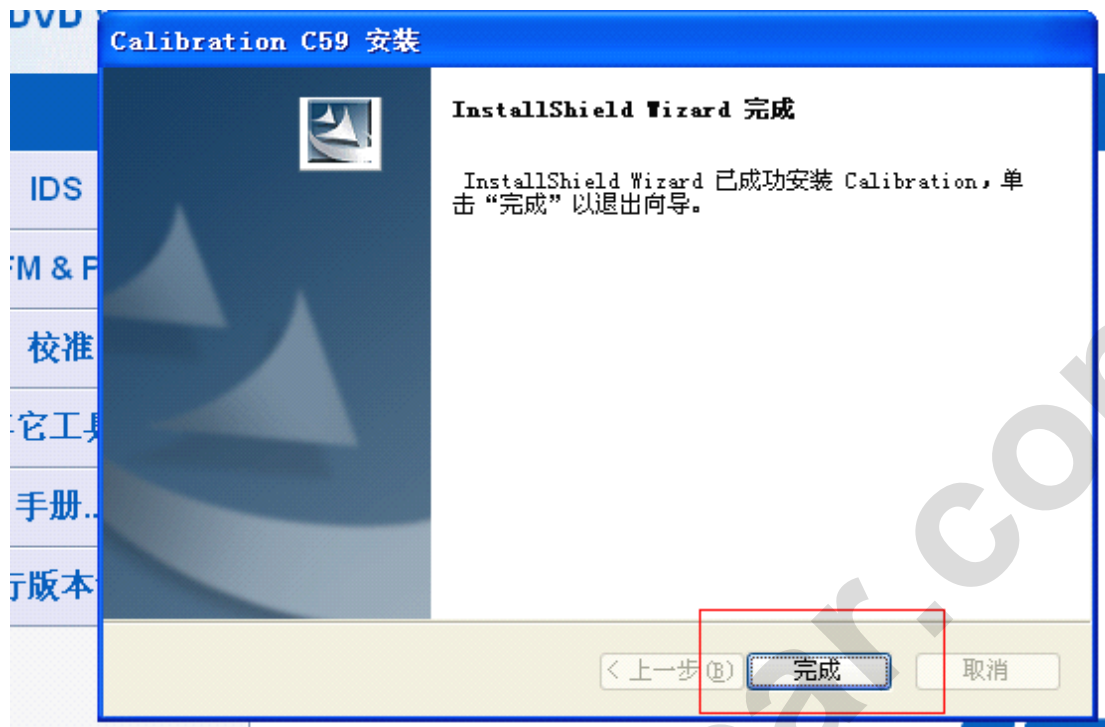

4, PC automatically turns off and restarts.

Email: sales02@careucar.com MSN: careucar@hotmail.com  
Skype: careucar Yahoo: careucar@ymail.com

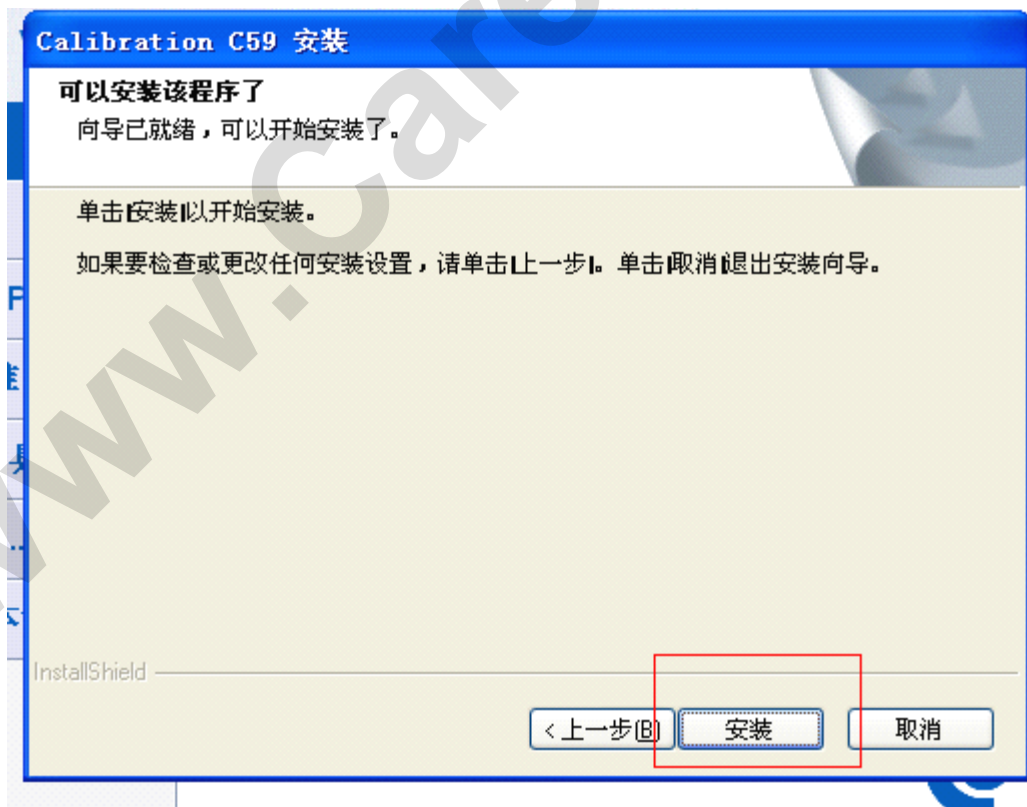

5 open again IDS software, then to select the third “option”.

Email: [sales02@careucar.com](mailto:sales02@careucar.com) MSN: [careucar@hotmail.com](mailto:careucar@hotmail.com)  
Skype: [careucar](https://www.skype.com/user/careucar) Yahoo: [careucar@ymail.com](mailto:careucar@ymail.com)

Store into "C disk"

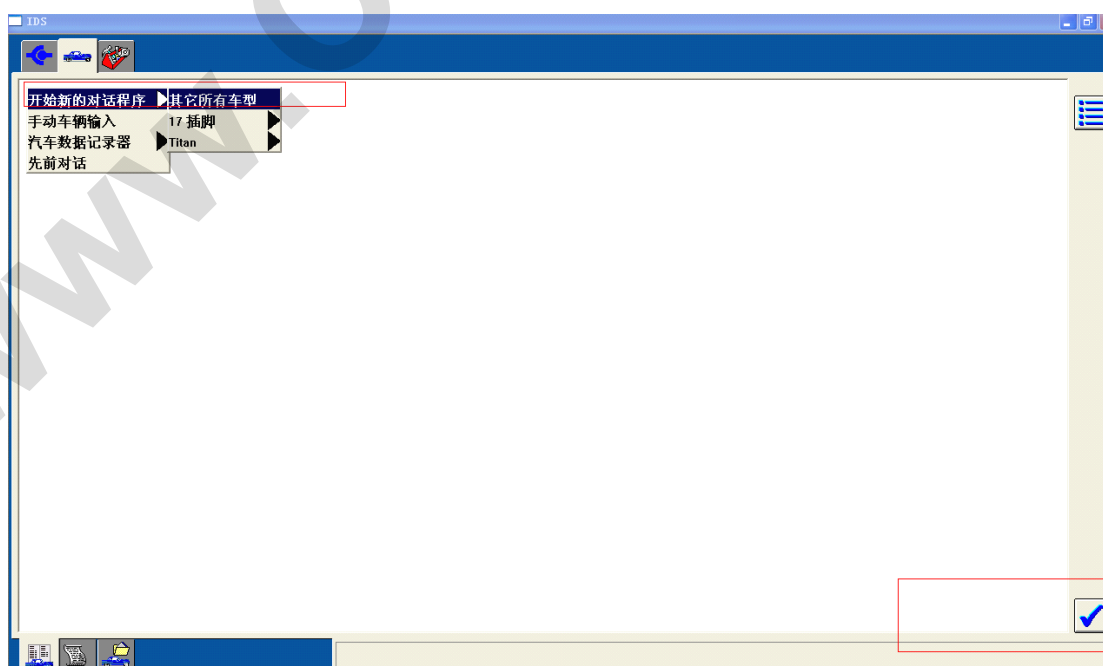

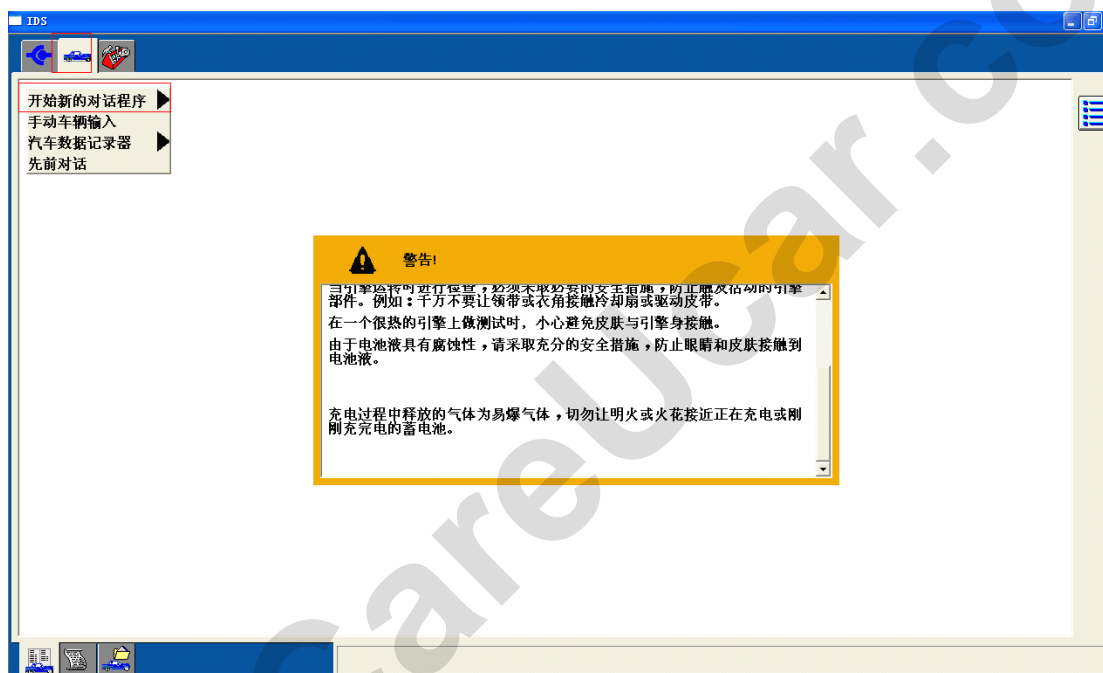

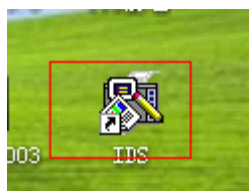

6, after finish installation, open IDS diagnostic software.

Email: sales02@careucar.com MSN: careucar@hotmail.com

Skype: careucar

Yahoo: careucar@ymail.com

Attention: do not firstly connect VCM interface with PC, and do not supply power; but you should firstly open IDS.

Email: [sales02@careucar.com](mailto:sales02@careucar.com) MSN: [careucar@hotmail.com](mailto:careucar@hotmail.com)  
Skype: careucar Yahoo: [careucar@ymail.com](mailto:careucar@ymail.com)

7. Follow the following image to connect one interface of USB to PC, and another interface of USB to VCM, and another interface of VCM to your car.

8, to make sure VCM and PC have a good communication, open Local Links, to see its data package, the “receive” and “send” must be balance, if it is not balance, to make sure close “firewall”.
